

# **Biochemistry in the Individual Study Programme (ISP)**

**2017/18**

## **Duties of the students**

All students have a right to attend the whole course in full extent. We ask students who want to attend the classes in full extent to inform the teacher of the group they belong to as soon as possible.

The students in the Individual Study Programme (ISP) who received their credits in Biochemistry during the academic years 2015/16 or 2016/17 do not need to attend the laboratories again.

**We ask those students who do not want to attend the classes in full extent to inform the secretary of the department till 31.10.2017.**

**Credits will be granted to those students who successfully pass the announced tests:**

1. WS-CHAN (Optical methods, potentiometry, osmolality, free radicals and antioxidants)
2. WS-PRO (Chromatography, vitamins, molecular biology)
3. SS-CHAN (Enzymology)
4. SS-PRO (Clinical biochemistry including acid base balance examinations)

**The tests can be completed on designated dates only.**

**Students have no right to require individual terms for fulfilling this duty!**

Anticipated dates for the tests of ISP students who do not intend to attend classes in full extent:

- 1) Wednesday 8.11.2017
- 2) Wednesday 13.12.2017
- 3) one or two terms during winter semester examination period
- 4) in the middle of the summer semester
- 5) at the end of the summer semester
- 6) one or two terms during summer semester examination period
- 7) one term in September

Within one term, several tests may be completed. The number of attempts is limited to three per test!

October 2nd, 2017

Ing. Václav Babuška, Ph.D.  
Deputy Head of the Department
